This presentation and the products shown herein are not affiliated with, endorsed by, or certified by the DALI Alliance unless explicitly stated. LUXTONE acts as a reseller of DALI certified products from DALI alliance members. All references to **DALI** or **DALI-2** are for descriptive purposes only to indicate compatibility or interoperability with the DALI standard.

Wall Mounted Panels

METIS (DALI Push Button Wall Panel)

DALI Button Wall Switch Key features:

- DALI Push Button Wall Switch control device according to IEC62386-101, IEC62386-103, IEC62386-301 and IEC62386-332 Supports feedback functionality, provides 8 LEDs
- Suitable for integration and in combination with DALI compliant input device standard IEC62386-103 and compatible with DALI Application Controller
- Multimaster capable, multiple modules can be installed on the DALI- line
- Easy configuration via DALI compliant central controller USB interface
- Compatible with universal 55mm frames
- Color options White, Dark anthracite grey, Grey and Golden
- Customised laser text possible. Other colors on request.
- Powered by DALI bus with a current of 7 mA (max. 13 mA)

Touch Panels

4 Scenes 1 Group(Broadcast)

ORION

DALI Touch Panel Key features:

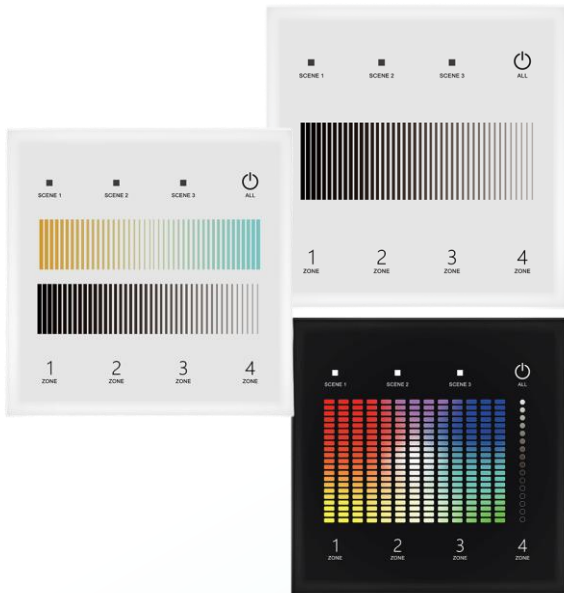

- Works standalone or part of a Networked system
- Minimal setup / out-of-box operation
- Capable of creating, storing and recalling four lighting scenes
- Intuitive touch sensitive control with haptic feedback
- DALI Type 6 and Type 8 (CT and x-y color presentation) compatible
- Two part construction
- Glass Display
- Designed to fit DIN, UK and similar backboxes
- Set DALI Group via DIP Switch
- DALI Power Supply

EOS

DALI Touch Panel Key features:

- Works standalone or part of a Networked system
- Minimal setup / out-of-box operation
- Capable of creating, storing and recalling 4 lighting scenes and 4 lighting Zones (Groups)
- Intuitive touch sensitive control with haptic feedback
- DALI Type 6 and Type 8 (CT and x-y color presentation) compatible
- Two part construction
- Glass Display
- Designed to fit DIN, UK and similar backboxes
- Set DALI Group and Scenes via USB Configurator
- Powered by 24VDC or DALI Power Supply

4 Scenes 4 Zones(Groups)

DALI Sensors

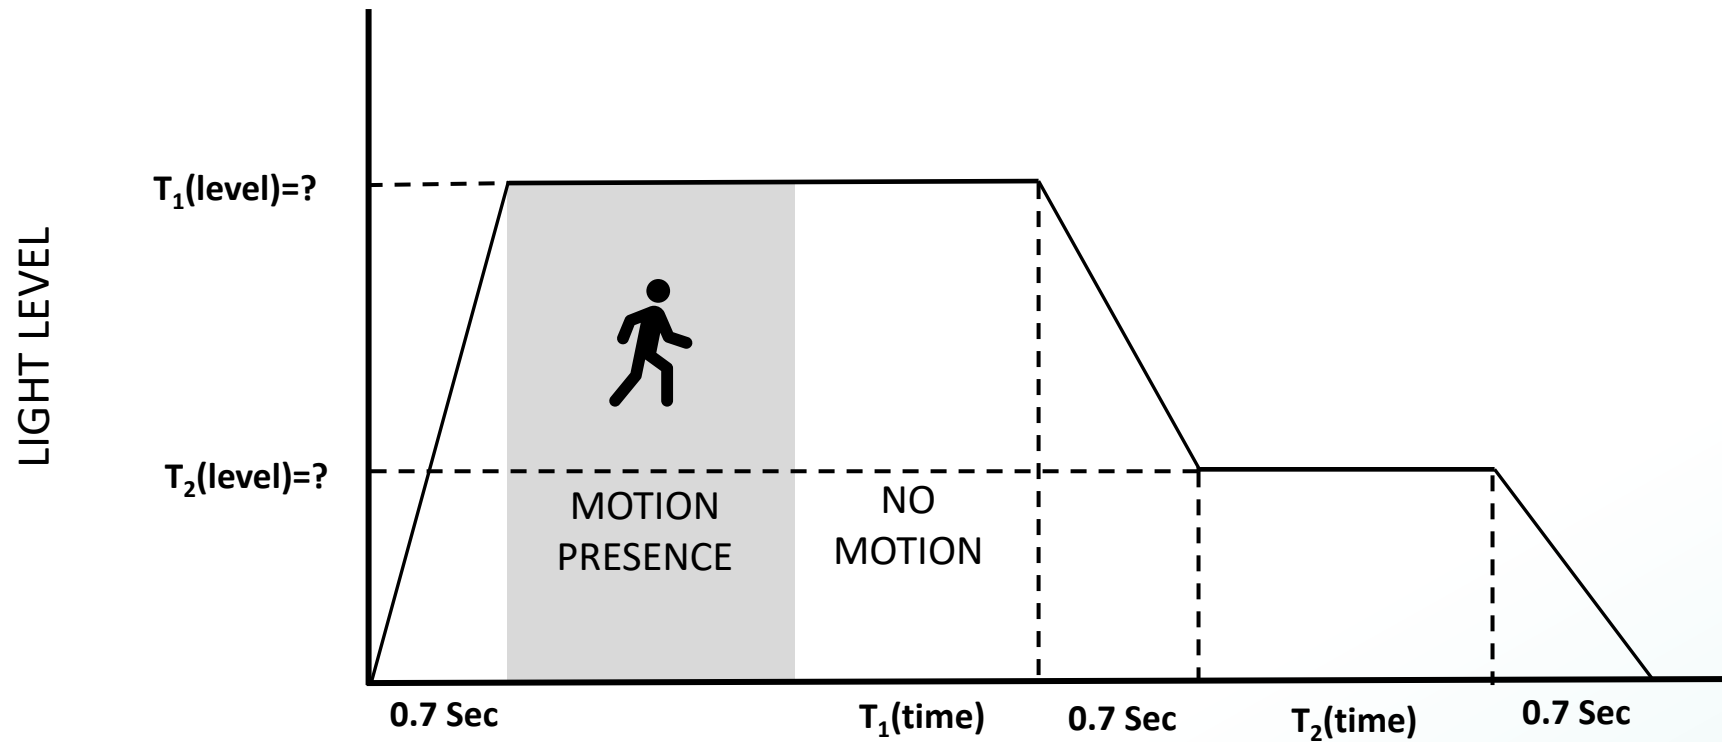

DALI 2 D4i PIR Motion Sensor

SKU No. 2001818

Key Features:

- Both DALI & sensor power supply
- Self-contained“application controller”.
- Stand-by current consumption: max. 6mA.
- Daylight sensor lux setting: 10-2,000lux.
- Individual adjustment of parameters with configuration software.
- Constant-Lux control, ideal for office / commercial lighting. Three modes: Input device; PIR & Constant-Lux; Constant-Lux fully compatible with DALI Part 251,252,253 and 351.
- Settings via both DALI Bus and remote control.
- Detection range: max. 6-8m in diameter.
- Mounting height: max. 4m.
- Operation temperature: -10°C ~ +50°C

Factory Default Settings

$T_1(\text{level})=100\%$

$T_2(\text{level})=10\%$

$T_1(\text{time})=90$ Seconds

$T_2(\text{time})= 5$ Mins

DALI 2 D4i Lux Sensor

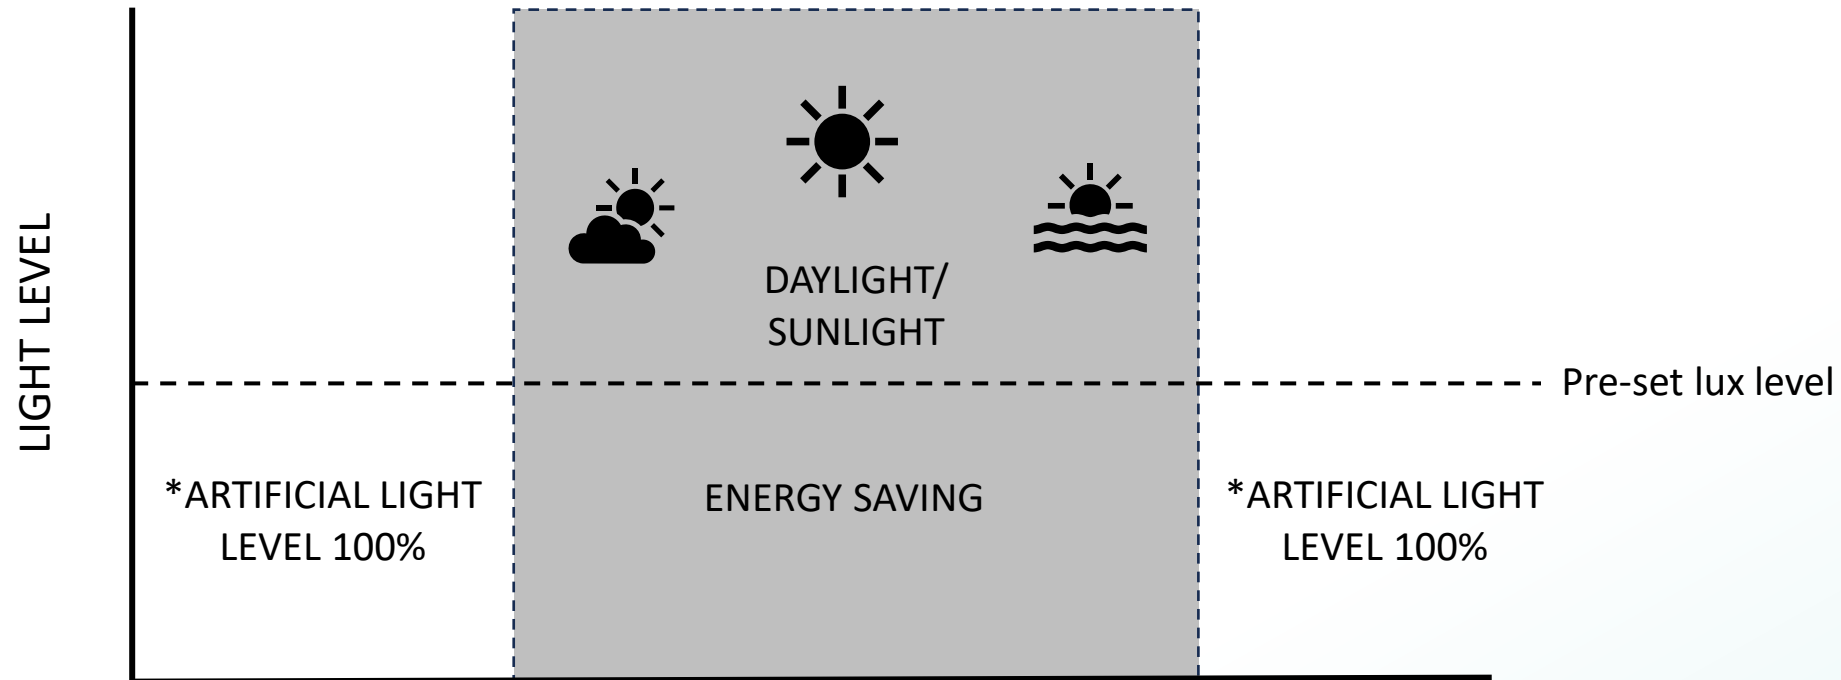

SKU No. 2001819

Key Features:

- Both DALI & sensor power supply.
- Self-contained “application controller”.
- Stand-by current consumption: max. 6mA.
- Daylight sensor lux setting: 10-2,000lux.
- Individual adjustment of parameters with configuration software.
- Constant-Lux control, ideal for office / commercial lighting. Fully compatible with DALI Part 351.
- Settings via both DALI Bus and remote control.
- Default 300lux as lux on threshold.
- Operation temperature: -20°C ~ +70°C
- IP65

DALI 2 D4i Lux Sensor

STEP 1

Choose the desired target lux level, the daylight sensor will automatically switch on when surrounding brightness is below the target. If surrounding brightness is over the target, the whole daylight sensor will not work at all.

* Lux-On sampling time -- 10s

STEP 2

During operation, the daylight sensor regulates the light output automatically according to the level of surrounding brightness. The natural light goes up, the artificial light goes down; the natural light goes down, the artificial light goes up. In this way to maintain the overall brightness of the whole room around the pre-set lux level.

STEP 3

The daylight sensor will automatically switch off when the natural light is confirmed sufficient.

*Lux-Off sampling time -- 30s.

Circadian Daylight Control

Colour Temperature table - Factory Default Settings

Time	Tc[K]	Time	Tc[K]
0h	2700K	12h	5800K
1h	2700K	13h	5685K
2h	2700K	14h	5318K
3h	2700K	15h	4767K
4h	2700K	16h	4101K
5h	2700K	17h	3412K
6h	2700K	18h	2700K
7h	3412K	19h	2700K
8h	4101K	20h	2700K
9h	4767K	21h	2700K
10h	5318K	22h	2700K
11h	5685K	23h	2700K

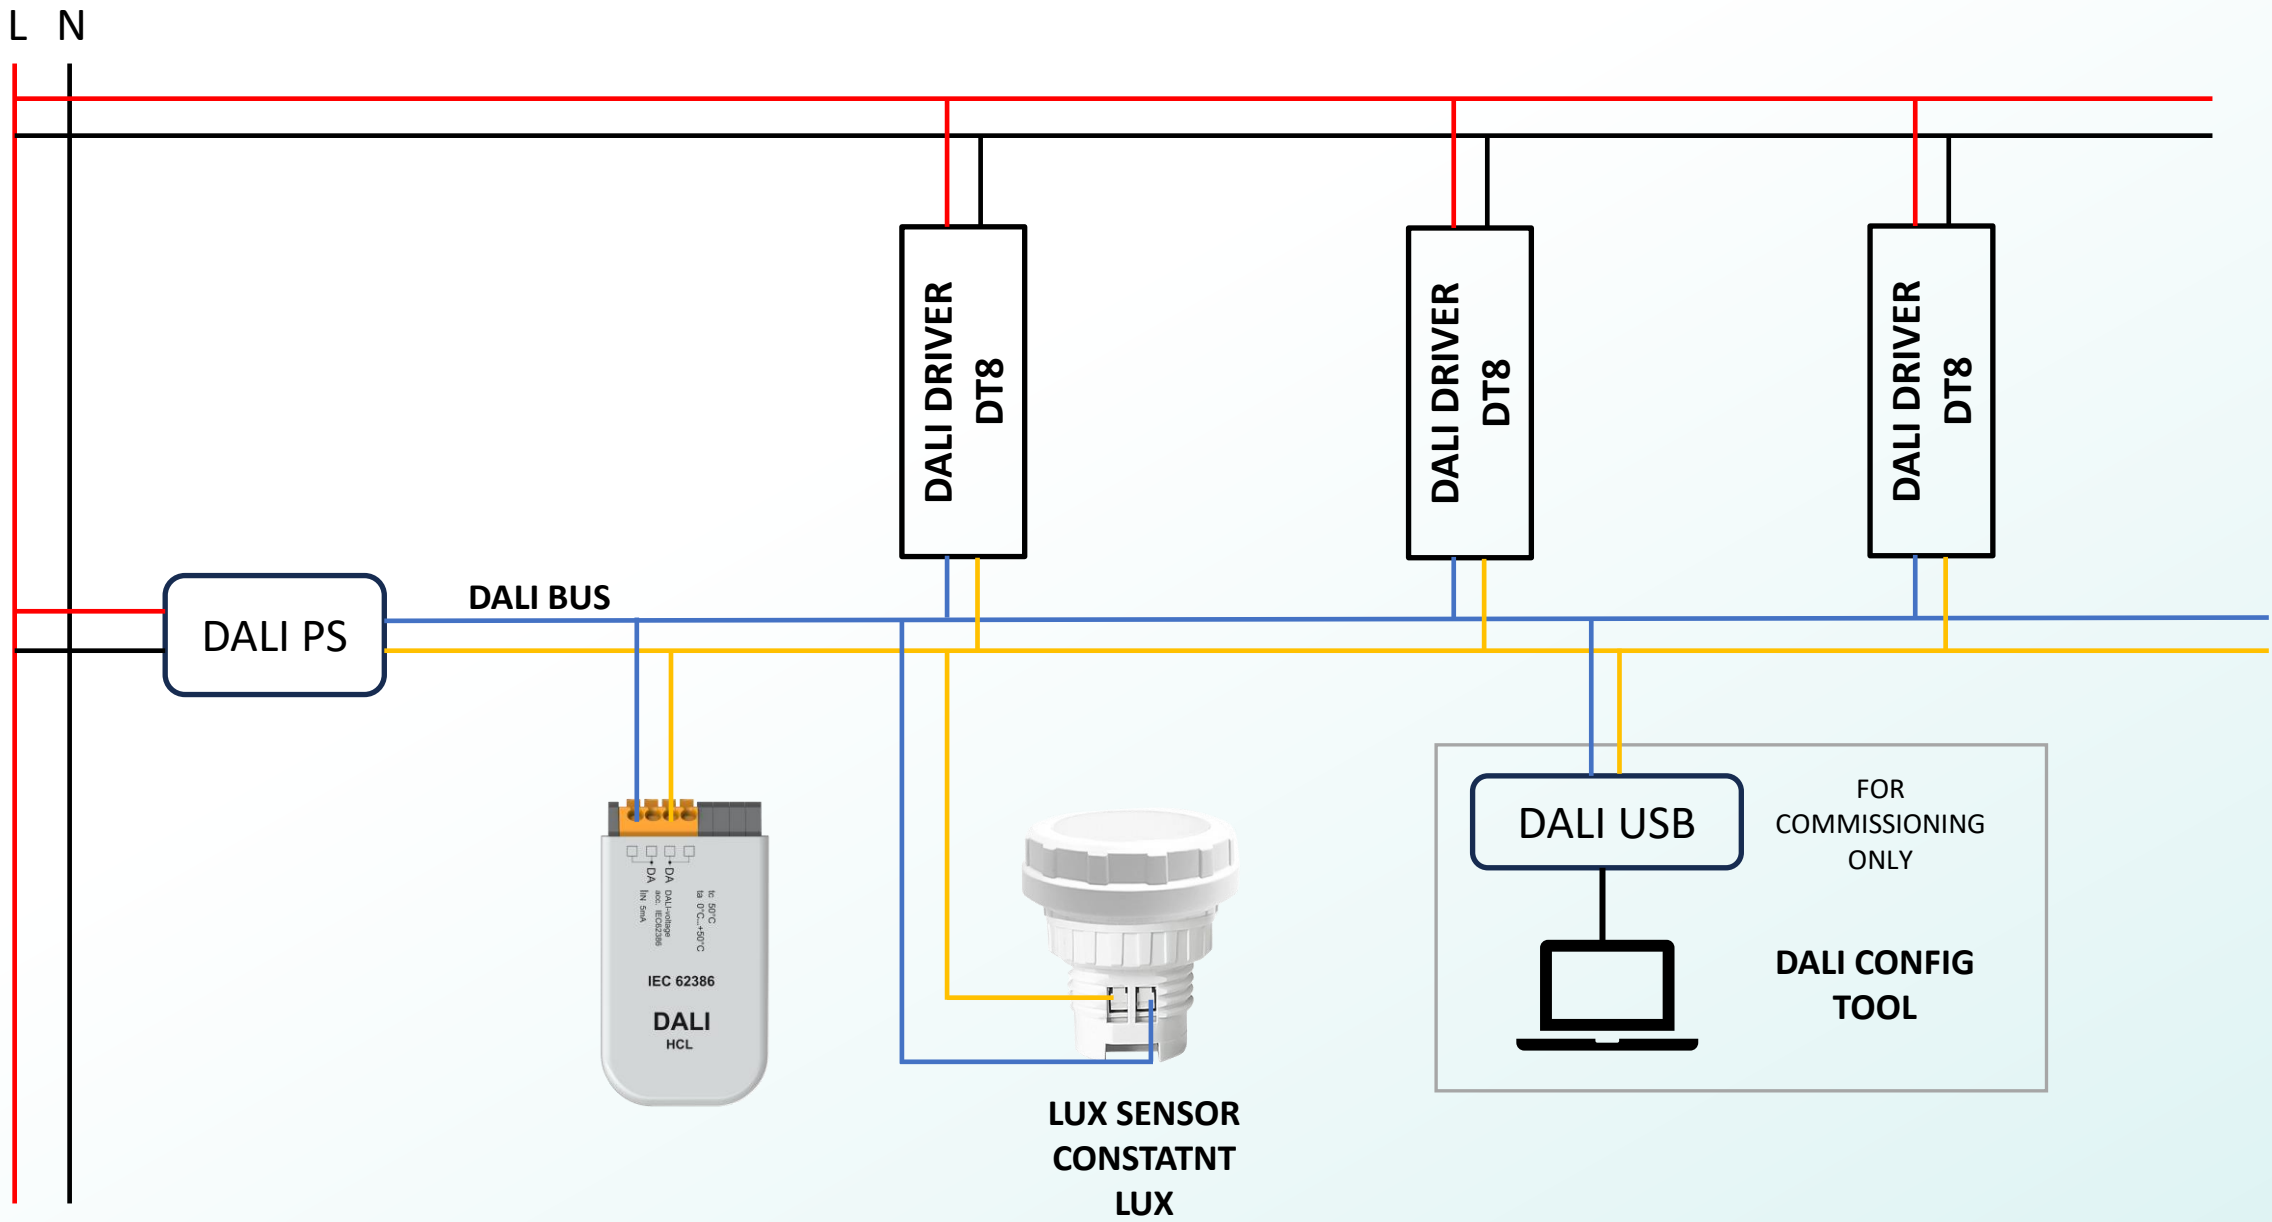

Circadian Daylight Control

SKU No. 2001830

- Control device for DALI DT8 luminaires (colour mode Tc)
- biorhythmic time-adjusted colour temperature (Tc) reference value
- integrated real time clock(Astro Clock)
- daylight saving time (DST)
- light level curve
- the time and the colour temperature characteristics over time can be configured with the help of the DALI software tool

Bluetooth to DALI Bridge

BLUETOOTH TO DALI BRIDGE

SKU No. 2001831

- DALI-2 Bluetooth Interface for commissioning, configuration and control of DALI systems using the smartphone app.
- Output with DALI power supply (200mA) for the supply of up to 64 DALI devices
- Control and configure LED Drivers DT6, DT8 Tc, DT8 RGBW
- Control and configure input devices
- Download apk file.
- Download app Manual

DALI Power Supply

DALI PS 1

SKU No. 2001835

DALI Power Supply:

- AC INPUT 85-240V
- DALI output max 250mA 16V
- DIN Rail Mounted
- Output is double isolated from input
- DALI output voltage 16V
- Max. Output Power DALI 5W
- IP24
- 5 Yr. Warranty
- Short Circuit Protection of DA+ /DA-

DALI PS 2

SKU No. 2001834

DALI Power Supply:

- AC INPUT 100-277V
- 3 models 50mA, 100mA and 200mA
- Output is double isolated from input
- DALI output voltage 16V
- Max. Output Power DALI 5W
- IP24
- 5 Yr. Warranty
- Short Circuit Protection of DA+ /DA-

DALI PS 3

SKU No. 2001836

DALI Power Supply:

- AC INPUT 100-277V
- 3 models 50mA, 100mA and 200mA
- Output is double isolated from input
- DALI output voltage 16V
- Max. Output Power DALI 5W
- IP65
- 5 Yr. Warranty
- Short Circuit Protection of DA+ /DA-

DALI LED Driver EVAL + Development Board

- DC-DC Board
- IEC 62386 Part No. 102, 207 and 209 compliant firmware
- DT6 and DT8(Tc)
- Input: $V_{IN} > V_{OUT}$
- Output: V_{OUT} Range 6-42VDC (LED Load)
- Dimming range 0.1%-100%
- Output Current Max. 1A, Current variation < 2%
- Current DIP Switch 3 Pole 8 Currents(275-1000mA)
- DALI Bus input
- ProbitLab2 tested
- Ready for DALI 2 test sequence software
- Suitable for OEMs who wish to get into production of DALI LED drivers leading to DALI alliance membership
